## Message from Mr McCoy

We end another week on a high at Bleak Hill with children taking part in Democracy Day. Key Stage 2 children have had the opportunity to write speeches to apply to represent their class on the school council and Year 6 children have written speeches to apply to become House Captains for their colour team. All Key Stage 2 children have then voted for their School Council representative and House Captain. The successful candidates will find out next week.

This week, we hosted our Autumn Book Fair and it was a huge success. Thank you so much to all of our Bleak Hill families for supporting school as this provides vital funds to buy more books for the children at school.

Have a great weekend!

## Merit Award - Children who listen and appreciate others opinions

## What's on next week

02.10.2023	Before School	During School	After School
Monday		Y2 & Y6 PE	Judo Y3, 4, 5 & 6 - (external provider) <b>Exit via main reception at 4.10pm</b>
Tuesday	Football Y3 & 4 - Ian McMinn (external provider) <b>Enter via Junior Library corridor (KS2 playground)</b>	YR, Y4 & Y5 PE	Young Voices Y5 & 6 - Mrs Burrows <b>Exit via main reception at 4.15pm</b>
Wednesday	Dance Y2, 3, 4, 5 & 6 Karen Elliott (external provider) <b>Enter via Junior Library corridor (KS2 playground)</b>	Y1, Y3 & Y6 PE	Gymnastics Y1 & 2 - Future Gym (external provider) <b>Exit via main reception at 4.15pm</b>
Thursday	Football Y1 & 2 - Ian McMinn (external provider) <b>Enter via Junior Library corridor (KS2 playground)</b>	Y1, Y2 & Y5 PE Y6 Rugby Competition	Athletics Y3, 4, 5 & 6 - Future Gym (external provider) <b>Exit via main reception at 4.20pm</b>
Friday	Gymnastics Y3, 4, 5 & 6 - Future Gym (external provider) <b>Enter via Junior Library corridor (KS2 playground)</b>	YR, Y3 & Y4 PE KS2—M&M Productions <i>The Hobbit</i>	

## Friends of Bleak Hill

Thank  
You

Lisa Marsh, FOBH Chairperson has decided over the summer to step down from her role. Lisa has supported FOBH for over 10 years.

We would like to thank her for all her support to help fund-raise so much money for FOBH, which has been incredibly well utilised within school. We wish her well for the future.

Lisa Moore has now been appointed to the role of FOBH Chairperson.

### 300 Club

The 300 Club is your chance to win ££. For just £10 per year, you have multiple chances to win all year round!

**Monthly Draw £40**  
**Christmas Draw £100 & £50**  
**Summer Draw £100 & £50**

The draw takes place the first Friday of the month and the winner will be published in our newsletter. **The 1<sup>st</sup> draw is Friday 10<sup>th</sup> November.** To enter, please go to SchoolMoney and purchase your tickets in the 'Shop' section. Entries are not limited, so you can purchase on behalf of your family and friends!

*The 300 Club is a valuable source of income for the school and by entering, you are helping raise much needed funds to help the school purchase vital equipment which otherwise might not be available.*

# All Day. Every Day.

## Attendance Matters

Attendance	
Whole School	96.3%
Reception	96.0%
Year 1	94.5%
Year 2	97.0%
Year 3	99.1%
Year 4	98.1%
Year 5	94.3%
Year 6	93.9%

### Attendance Update

We need to try really hard each and every week to make sure every year group is beating our **96% target** this will help us to succeed!

**Our attendance for 18-22 Sept was:**

**96.3%**

**Our attendance for the year so far is: 97.5%**

Please remember term time holidays should not be taken, and in most cases will not be agreed. However all term time holidays must be requested by filling out the correct form from the office or off the website. A response will be sent within 7 days.

# A parent's guide to INTERNET CONTROLS

## A parent's guide to INTERNET CONTROLS

The internet is full of harmful content, which is why web filtering is such an important tool for any family. When running properly it helps to protect your children from the bad things on the internet, regardless of whether they're trying to access that type of content on purpose or it happens by accident.

While parental controls are generally lumped together as one, there are three main ways of providing them: via your Internet Service Provider (ISP), via a router or via software that you install. Each has its own benefits and downsides, and the best solution is often to use a combination of techniques to catch everything and prevent a child from bypassing your protection. In this brochure, we'll look at each type to see which ones are best for you.

### Meet our expert

This guide has been written by David Ludlow. David has been a technology journalist for more than 20 years, covering everything from internet security to the latest computing trends and the smart home. A father of two (a nine-year-old and a six-year-old), he's had to control and manage how his children access online services and use apps.

# ROUTER FILTERING CONTROLS

Most routers provide internet filtering. The most basic models just let you type in a website that's blocked, which doesn't provide a very practical way of locking down your internet connection. However, many new routers and wireless mesh systems are upping their game when it comes to parental controls. They are providing more advanced controls, and that's what we're looking at here.

Although usually provided free, some manufacturers have a monthly charge for more advanced features. For example, with the Netgear Orbi System, you get basic filtering for free, but more advanced controls are available on a monthly subscription.

Using router controls, you can create profiles for each person in your home, assigning devices to each person. A child, for example, could have a profile that associates their laptop, phone and games console to them.

Filtering controls let you set which types of websites each profile can access, with more restrictive blocking for very young children, less stringent blocking for teenagers and unfettered access for adults.

In addition, profiles often let you set both when a profile can access the internet and for how long. You can even pause internet connection for a profile, blocking internet access temporarily for a child. As controls are applied for all devices, it means that a child can't swap to a different device to carry on using the internet.

The main downsides are twofold. First, protection doesn't work outside of your home, so a child has unrestricted internet access on other networks. Secondly, they can't control which apps your child can use, so you can't lock down applications and games so easily.

Users of this guide do so at their own discretion. No liability is entered into. Current as of the date of release: 19.06.2019

# PARENTAL SOFTWARE CONTROLS

Traditional parental control software is typically available as part of an anti-virus suite, although dedicated applications are also available. The software has to be installed on a child's devices, with most supporting Windows, Mac, iPhone (iOS) and Android. Control is typically via the web, letting you set the types of websites that a child can visit, and how long they're allowed to use devices for.

Parental control software has two main advantages over the other methods. First, it can be used to monitor and restrict which apps are being used, in addition to filtering websites. Secondly, the software continues to work no matter where the child is, so they can't bypass protection by connecting to a different wireless network, for example.

The downside is that the level of support is more restrictive and some devices, such as games consoles, won't be supported.

Users of this guide do so at their own discretion. No liability is entered into. Current as of the date of release: 19.06.2019

# ISP FILTERING CONTROLS

Your ISP will have its own filtering controls that you turn on for your entire internet connection. They're provided free of charge and provide a simple, baseline level of protection. The main benefit of these controls is that they don't require any software to be installed and will work on any device connected to the internet from a laptop to a games console.

The main issues come from the fact that the controls are simplistic. First, as controls apply to every device equally, everyone in your home gets the same level of filtering regardless of whether they're five-years-old or an adult. Secondly, ISP filters can't block specific applications, such as a game. Thirdly, ISP filters only work while you're at home; if a child takes their laptop or tablet elsewhere, there's no active filtering (note that BT's controls also work if you're signed into BT Wi-Fi).

Typically, ISP parental controls can be temporarily turned off (or run on a schedule) to allow adults access to other content. However, while the controls are turned off, the entire network is open, enabling a child to access anything they like.

It's worth mentioning the parental controls that mobile networks provide. These can be turned on to filter all web traffic from a child's smartphone when they're using the mobile network. The downside is that the controls aren't in force when a child connects to a wireless network, so you'll want to look into additional controls.

Users of this guide do so at their own discretion. No liability is entered into. Current as of the date of release: 19.06.2019

## WHICH TYPE IS THE BEST?

In truth, the best form of protection is to use multiple layers of protection. Parental control software is a great option for monitoring and controlling what a child can see and do on their computer, tablet or phone, and gives protection outside of your home. It's worth supplementing this control. If your router has advanced parental controls, then use this to control internet access on all of a child's devices, even those that don't support your software. ISP filtering should be used as a last resort, as it restricts what everyone can do, even you.

That said, make sure that your child's phone has internet filtering turned on so that your child remains protected even if they use mobile data.
